EXPERIENCE:

Flying Tiger Express – Full Stack Web / Mobile Developer *(Intern)* **Feb. 2026 – Current**

- Assisted and resolved bugs, improved layouts, and refactored the codebase for better maintainability.
- Developed new features to enhance user experience, and improve performance optimization.
- Provided suggestions and recommendations for certain features, to improve clarity and alignment across the team.
-

Pet Care Pro – Full Stack Developer *(Freelance)* **Dec. 2024 - May. 2025**

- Converted the Figma UI/UX designs into a fully working, web interface to firestore database
- Maintainer of the quality, assured, and development of the web platform
-

RubberTapAI – Leading Programmer (*Capstone*) **Jun. 2025 – Dec. 2026**

- Created, trained, and deployed AI models, and integrated them into a React Native Android application and a Node.js/Express server to enable end-to-end system functionality.
- Led the development of the mobile Android platform using the React Native framework.
- Developed and maintained the backend server using Express.js, REST APIs, and WebSockets for real-time communication.

EDUCATION

University of Cebu – Banilad Campus, - Bachelor of Science in Information Technology
July. 2025 – Present.
Gov. M. Cuenco Ave.

PROJECTS

Notes Management System – *Console-based Notes Management System.*
https://github.com/JacobMayor007/Notes-Management-System

- Built with Java that allows users to create, view, update, and delete notes by storing them as individual text files directly on your computer's local file system.

ChutUpp – *Realtime Secure Chat Application - https://github.com/JacobMayor007/ChutUpp*

- A real-time chat application built using Go (Golang) for the backend server and React for the frontend, utilizing WebSockets for instant communication and PostgreSQL to save the chat history.

SKILLS

Next.js
React.js + Vite
Tanstack Query
Websocket
Go + Fiber
Android Studio
React Native
Nest.js
Express.js / Node.js
Git / Github

AWARDS

CCNA: Switching, Routing, and Wireless Essentials – Cisco Networking Academy

2nd Place – Networking Competition: 11th UC ICT Congress 2025
Networking Competition: 11th UC ICT Congress 2025,

Participant – 2025 Cebu: Interschool Hackathon (PropTech)

LANGUAGES

Javascript Typescript
